About Me

As a Computer Science Engineering student with a strong interest in sales and marketing, I am seeking an internship opportunity that allows me to apply my technical skills and passion for the industry. My academic background in computer science has equipped me with a strong foundation in programming languages such as Python, Java, C++, SQL, HTML/CSS, and JavaScript. I am eager to leverage these skills in a practical setting, and I am confident that my problem-solving abilities and innovative thinking will add value to your team. I am particularly interested in roles where I can work on projects at the intersection of technology and marketing, as I believe my unique skill set will enable me to make a significant contribution.

Education

Podar International School

2009 – 2019

Nav Krishna Valley School, Sangli

2019 – 2021

Bharati Vidyapeeth College of Engineering

Bachelor of Technology – BTech, Computer Science and Engineering

2021 – 2025

Experiences

Bharatiyam 2k23 (College Fest):

Being in the marketing team for the fest I was responsible for bringing in sponsorship for the same. I faced multiple challenges as our college fest did not have a great track record as it was not conducted for almost 4 years due to various issues as well as covid.
